Extra-curricular Activities

Clubs & Organizations

Director of Logistics (MedVet Club)
Logistics

Grades participated in: 11th
Hours spent: 1 per week
Weeks spent: 6 per year
Held leadership position for 1 year

I was in charge of the finance of logistics, handling financial organization, administration, and finance sheets.

Certificates & Awards

Researcher
FedEx JA International Trade Challenge

Grades participated in: 10th , 11th
Hours spent: 4 per week
Weeks spent: 8 per year

Tasked with creating an international market entry strategy with a team of 2, successfully initiated and placed at Regional Finals (Top 5), where over 6700 students applied internationally. We were selected as the Top 5 among Singapore.

Certificates & Awards

Participant
International Business Olympiad

Grades participated in: 11th
Hours spent: 2 per week
Weeks spent: 4 per year

Olympiad with 300 Questions in under 3 hours. Scored 256/300, landing Higher Distinction.

Academics

Independent Researcher
Independent Quantitative Research

Grades participated in: 11th
Hours spent: 7 per week
Weeks spent: 16 per year

Designed and implemented a Quantitative Research on Momentum Based Strategies, and the application of ML on these strategies. Built with Python frameworks like NumPy, Pandas, Matplotlib, PyTorch etc. Evaluated performance of both strategies using a fixed time period and asset classes, evaluating under Sharpe Ratio, Max Drawdown, and robust testing.

Submitting the paper under an Early Career Quant in the publication journal on arXiv.

Academics

Developer
Quantitative Tool (Public Use)

Grades participated in: 11th
Hours spent: 7 per week
Weeks spent: 12 per year

Implemented a regime detection tool using Hidden Markov Models (HMM) to identify different market regimes (bear/bull/consolidating). Trained the model on historical price returns and data; estimated the transition probabilities via Baum-Welch Algorithm.

Still yet to complete.

Clubs & Organizations

Academics (Finance)
GIS EconBiz Club

Grades participated in: 11th
Hours spent: 5 per week
Weeks spent: 8 per year
Held leadership position for 1 year

In charge of Finance in EconBiz Club, conducting a business case competition in collaboration with NTU, and handling conference talks with Financial Professors in NTU/

Certificates & Awards

Participant
Singapore Mathematics Olympiad

Grades participated in: 11th , 12th
Hours spent: 6 per week
Weeks spent: 8 per year

Planning to write SMO in July 2026

Academics

Researcher
Research Paper on Information Theory

Grades participated in: 11th , 12th
Hours spent: 4 per week
Weeks spent: 26 per year

Worked on a research paper on Claude Shannon's Information Theory. This is the Extended Essay for IBDP Program involving CS + Mathematics.
